That's what we make our sausage of and you can't beat it. There isn't any better sausage made.

After people have tried it they come again and want s'more. Some of the pigs were white and some black and other colors, but that don't make any difference with the sausage, just so 'z they're young and tender.

I believe in laughter, in love, in faith, in all ideal and distant hopes that lure us on.

I believe that every hour of every day we receive a just reward for all we are and all we do.

I believe in the present and its opportunities, in the future and its promises and in the divine joy of living. Amen. —EDWIN OSOOND GROVER.

#### Council Proceedings.

#### HORTICULTURAL BUILDING, PANAMA-PACIFIC INTERNATIONAL EXPOSITION.

ONE of the most notable buildings at the Panama-Pacific International Exposition at San Francisco in 1915 will be the great Palace of Horticulture, constructed of glass, covering over five acres, or two city squares in extent, and surmounted by a dome 150 feet high. The Palace of Horticulture will be set in a great tropical garden near the main entrance to the exposition grounds. It will be 672 feet long and its greatest width will be 320 feet. An impressive nave eighty feet high will run the length of the building and paralleling the central nave on either side will be two side aisles fifty feet in height. At the main entrance to the building a huge arch will be adorned with classic busts and statues suggestive of the purpose of the structure. The entrance and interior of the Palace of Horticulture will be decorated with trellises upon which flowering vines will be trained. When the exposition opens the Horticultural Palace will appear as if set in the heart of a marvelous garden. Although wood will be used in connection with glass the Palace of Horticulture will be in every sense a glass palace. It will be the largest glass structure ever built. During the night illuminations at the exposition the vast surface of the building will present unusual and beautiful reflections.

enter school not later than next Monday morning.

Miss Burrows and Miss Bates assumed their respective duties in the high school and second grade Monday morning.

"He who would have the crows eggs must climb the tree." This quotation seems very fitting at the time of semester examinations.

New classes in English composition and beginners' algebra have been formed for the benefit of the pupils promoted from the eighth grade.

The United States history class has been making an intensive study of the Civil War period, supplemented by interesting stories by Mr. Smith.

Mr. Richard Smith, assistant state geologist, was a caller at school last Tuesday. Miss Jacobs and Mr. Ellsworth are both former acquaintances.

A new stack of five cases has been added to the library equipment, and an order for books is being placed. The high school appreciates the addition very much.

The third grade enrolled fifty-two pupils Monday morning; twenty-six boys and twenty-six girls. There are thirty-five pupils in the B class and seventeen in the A class.

High school classes have resumed regular work after semester examinations. It is with much pleasure we note few failures. A little more earnest effort will eliminate failures entirely.

Those of the third grade pupils neither absent or tardy during the semester were: Theodore Stralis, George Van Patten, Earle Nelson, Earle Frary, Iola Jones, Lillian Doran, Janet Matson, and Clara Madison.

We all enjoy the Outlook and World's Work, new magazines on our reading table. With the Inter Ocean, Scientific American, Moderator Topics, Youth's Companion, Review of News and Harper's Weekly, the reading table is a valuable asset.

Let parents as well as teachers reflect upon and mentally subscribe to the following so-called teacher's creed:

"I believe in boys and girls, the men and women of the great tomorrow, that whatsoever the boy soweth the man shall reap."

I believe in the curse of ignorance, in the efficiency of schools, in the dignity of teaching, in the joy of serving others.

I believe in wisdom as revealed in human lives as well as in the pages of a printed book, in lessons taught, not so much by precept as by example, in ability to work with the hands, as well as to think with the head, in everything that makes life large and lovely. I believe in beauty in the school

### The Home Circle

SUCCESS ONLY THROUGH TOIL.

Our young readers of this column especially the young men—should remember that success is found most often in the path of toil. There is no way to genuine success except through toil—either by head or by hand. At the battle of Creecy in 1346, the Prince of Wales, finding himself heavily pressed by the enemy, sent word to his father for help. The father, watching the battle from a windmill, and seeing his son was not wounded and could gain the day if he would, sent word: "No I will not come. Let the boy win his spurs, for, if God wills I desire this day to be his with all its honors." Young man, fight your own battles all through life and you will have the victory. Oh, it is a battle worth fighting. Two monarchs of old fought a duel, Charles fifth and Francis, and stakes were kingdoms, Milan and Burgundy. You fight with sin and the stake is heaven or hell.

Do not get the fatal idea that you are a genius, and that therefore there is no need of close application. It is here that multitudes fail. The curse of the age is genius—genius with enormous self conceit and egotism, and nothing else. We had rather be an ox than an eagle, plain and plod, dim and useful, rather than high-flying and good for nothing, but to pick out the eyes of carcasses. Extraordinary capacity without work is extraordinary failure. There is no hope who begins life resolved to live by his wits for the probability is that he has not any. It was not safe for Adam, even in his unfallen state, to have nothing to do, and therefore God commanded him to be a farmer and horticulturist. He was to dress the garden and keep it, and had he and his wife obeyed the divine injunction and been at work, they would not have been wandering under the trees and basking after the fruit that destroyed them and their posterity; a proof, positive for all ages to come that those who do not attend to their business are sure to get into mischief.

Your body is your best friend while you inhabit it, therefore take the best possible care of it, only a simpleton is ashamed of bestowing care on it—of keeping teeth, hands, feet, hair and skin in the best possible condition. It takes but a little while when the day's toll is over to sit down before a mirror and bathe in warm water, neck, face and hands, drying them with a soft towel and rubbing every part thoroughly including teeth and nails. A touch of sweet cream rubbed on where needed is very good. One feels so refreshed and respectable after the operation that the habit when formed is hard to give over when circumstance do not admit of it.

#### A WORD IN SEASON.

If you would have your boys pure, make comrades of them and then live as you wish them to live. There are few things more fruitful than example either good or bad. What do you know about the associates of your boys? With what sort of companions is the most of their time spent? Do you wish your boys to associate with those whose language is interlarded with profanity, with one whose language is vulgar and whose thoughts, words and deeds are immoral? Are you sure your boys are free from these defects? We trust that every parent who reads this article will take time to carefully think about the matter, and carefully consider whether he or she has been doing his or her own duty. There is little danger of being too careful, (we do not say strict), the great danger lies in being too careless. Keep your boys home as much as possible and do make it possible, to do so at night at least. Do your utmost to provide suitable employment and amusement for them at home, and assist them in their choice of friends and companions. Exercise care in the matter and it can be done without making your boy suspicious of you, or without irritating him but it will delight him to see the interest you have displayed.

The boys and girls look at the older people and see what they do. They watch the words of father, mother and friends, and take their cue quickly. Even the little ones are ever watchful to see just how closely father and mother adhere to the truth.

Some of the postmasters are worrying about parcel post regulations, declaring that as the law says packages can weigh eleven pounds, there are a number of turkeys, chicken and live animals that can come within that limit, even when properly packed and created. They were also concerned about butter and eggs, for they are of the opinion that if there is much traffic in these products it will be necessary for post offices to be equipped with refrigerating plants, or at least with an ice box of suitable capacity.

**Marlin**  
Model 1897

Whether you live in the city or country, you'll find no rifle reporting title like the Marlin Model 1897.

For the city man it is a perfect companion for the vacation or outing trip. It's light, takes down and packs in a small space. The ammunition is inexpensive. It's gun can be used with 22 shots for target and is equally capable of handling 22 long or long rifle cartridges without change of magazine.

On the farm the rifle is a necessity. The short cartridge is sufficient for the squirrel, quail and small game and the long rifle makes the Marlin Model 1897 a distinctive weapon for the sportsman.

The "Marlin Book" of 120 pages with handsome art cover, is full of up-to-date information for all gun-lovers and gives full description of all Marlin weapons. It's \$1.00 for 25 cents postpaid.

## SAYS THE TRUST BENEFITS

Profit-Sharing Scheme, So Loudly  
Vaunted Is Alleged to Swell the  
Coffers of the Company.

Even the vaunted profit sharing and pension plans of the steel corporation are like bait in traps to snare away the liberties of the men in its employ, declares a writer in the Metropolitan.

They tell us that this profit-sharing plan costs the company \$450,000 a year. After studying this plan, however, one is compelled to believe that the corporation gets value received for it; that this expenditure stands on about the same basis as that for the Hill ore leases, and the pig iron purchases. Furthermore, it is a profit sharing plan only to this extent, that the employees are allowed to buy a certain amount of stock under certain conditions, and to pay for it in annual installments. Those who do buy such stock will share in the profits of the corporation to the extent of their holdings, and to a further extent, as follows: The corporation agrees to put a bonus in this stock in the way of a bonus of \$5 per share per year. But the bonus will only be paid in case the employee remains continually in the employ of the company and can present annually a letter from a proper official declaring that he has shown a proper interest in it (the corporation's) welfare and progress. Now, do you see the joke? A man who had been known to vote for local option instead of the Penrose machine, or who had even been suspected of a man who "talks too much about unions," or circulates an eight hour petition, or does any one of those things that free men have a right to do, but that United States steel corporation employees are forbidden to do—do you think this man would be regarded as having shown a "proper interest" in the "welfare and progress" of the corporation?

And do you think he would get his letter from his official head which would entitle him to his bonus? As a matter of fact, the man who purchases stock on these terms gives his savings, hard earned and thriftily hoarded, to the company as a hostage for his subservience.

Why He Lost the Case.  
Private Dalzell, known as a fine raconteur, has put some of his best stories in his "Dairy of Thirty-Three Years at the Ohio Bar."

The first is in "A horse case," one of these hard-earned fellows who like to put the tough on the lawyer, was on the witness stand and was asked:

"Did you know the horse mentioned in this suit?"

Quick as lightning the witness flashed back, "No, I can't say that I had any personal acquaintance with him." The court instantly was in an uproar of laughter and that lawyer lost his case without any regard to its merits, for sometimes little incidents occurring at a trial change the whole case without rhyme or reason.

Only a Motorcycle.  
The man awoke suddenly.

He heard a shower of iron spikes rattling down a tin roof.

Then a fleet of steaming tugboats steamed up the roaring river.

A moment later a trip hammer beat a wild tattoo on a boiler plate.

This was followed by the hoarse snoring of a hundred charging rhinos.

By this time the man was fully awake.

He continued to listen.

Then he knew what had disturbed him.

It was a passing motorcycle.

News to Him.  
Among the many who go to the juvenile court to plead their children be released from institutions and permitted to return home is a man who is a slave to the drink habit.

A few days ago he went to the court with his usual supply of tears and pleadings. He encountered a probation officer and stated his case. The officer told him that he could not have the child under any conditions.

"You have been here seven times that I know of, and there has only been one occasion when you were not drunk," said the probation officer.

The man stared thoughtfully for a minute as though he had not considered that side of the affair.

"When was that?" he drawled.

"What is the matter, dear?" asked the mother of a small girl who had been discovered crying in the hall.

# NEWS FROM THE STATE CAPITOL

## MR. KAPPLER PROPOSES SWISS ELECTION SYSTEM FOR THE STATE OF MICHIGAN.

Civil Service and the Officeholders,  
Cigarette and Anti-Treating  
Bills Come in for a Share of  
the Solons' Attention.

[By Gurd M. Hayes.]

Rep. Kappler, of Houghton county, has introduced two proposals in the lower house that are considered somewhat revolutionary in their character. Both are concurrent resolutions. The first and most important of these is designed to establish an entirely new system of legislative representation in Michigan and is based on the representative system in vogue in Switzerland where the initiative and referendum came from. It will provide that the members of the house and senate be elected in accordance with the percentage of the vote. The resolution of course is to submit the necessary constitutional amendment to the people and it will be followed by a bill working out the details of the plan.

Under this proposal districts will be established in which the representatives will be chosen by the percentage system. If two-thirds of the people vote the republican ticket and the district is entitled to three representatives, the republicans will have two of the three and if the democrats represent the other third they will have the third member, the vote to be at large in each district.

Rep. Kappler declares the present system disfranchises the minority party no matter how close they come to winning, and sees his plan as the only fair solution of the problem.

The second resolution presented by Kappler is addressed to congress and urges the necessary constitutional and statutory amendments to provide for the convening of the incoming congress and administration with the first day of January of the year following the election. Kappler sees no reason why congress should hold over for more than six months after its defeat by the people.

The Trunk Line Roads.  
Going deeper into the idea of trunk line state roads, Senator Alswede, of Bay county, finds that such a large proportion of the original trunk line highway route is already improved and that he can add another north and south line to the original proposal and still remain in the \$3,000,000 appropriation.

To this end, he has outlined a third or east coast line road from Detroit through Flint, Saginaw, Tawas, Alpena, Cheboygan to Mackinac. With this road he will have three north and south lines, one on the central meridian and another on the west shore starting at Niles and following the Lake Michigan coast. The cross state line is from Detroit to St. Joseph.

The proposal calls for a total of 1,300 miles, of which 300 already is improved. Allowing \$2,000 per mile, and using convict labor Senator Alswede says the work can be kept within the \$3,000,000 appropriation that represents one-half of the automobile tax over a period of three or four years.

Offices and Civil Service.  
Because of the fact that the senate is slow about reporting out the appointment of John T. Winslow, who was the selection for Governor Ferris as insurance commissioner to succeed C. A. Palmer the first of next July, some of the democrats in the legislature are inclined to the belief that the republicans are simply playing a smooth game to rob them of some of the patronage.

Senator Verdeer has already introduced a bill putting all state employees on a civil service basis. Governor Ferris is known to favor such a measure and the democratic state platform is pledged to support such a bill. However, Verdeer's bill carries an appropriation clause that gives it immediate effect, and inasmuch as it further provides that all the present employees shall be retained, the democrats will have few jobs to distribute. It makes little difference whether or not the senate confirms Winslow's appointment, as the governor will be able to put him in Palmer's place after the legislature has adjourned.

Cigarette Bill.  
If Rep. Dunn, of Saginaw, and Rep. Bricker, of Ionia, have their way about it, there will be no more "paper pipes" sold in Michigan, as each of these members have introduced drastic anti-cigarette bills. At nearly every session some one puts in a measure placing the ban on the manufacture and sale of cigarettes, but as a general rule the bill seldom gets beyond the committee stage. It is thought that there is little chance of either bill passing.

Various Bills.  
Rep. Follette introduced a bill compelling railways carrying live stock to give precedence over all other freight. Rep. Catlin of Ingham has introduced a bill placing all county officials on a salary basis and eliminating the fee system. It is not thought that this bill will pass, as the office of sheriff, county clerk and register of deeds are fixed by the constitution which provides that they may receive fees and it would require a constitutional amendment to change the present system.

State Tax Commission.  
If the senate affirms the appointments of Governor Ferris the democrats will control the state tax commission as the chief executive has named Thomas Kearney, of Ann Arbor, and Orlando F. Barnes, of Rosemont, to succeed Thomas D. White and W. B. Mershon. Barnes has twice been the democratic candidate for land commissioner and a number of years ago was democratic mayor of the city of Lansing. Kearney has long been a prominent democrat in Washtenaw county.

State Police Force.  
A bill has been introduced by Rep. J. N. McBride, of Shiawassee, providing for the establishment of a state police force of 100 men to do the work of the game, forest and fire warden's department as well as to act as a state constabulary in case of disturbances or need anywhere, in the need of an organized force, in explaining the bill Rep. McBride said that the intention is to relieve the Michigan National Guard of all duty of this nature within the state.

Some Appointments.  
The following food inspectors have been named by Dairy and Food Commissioner James E. Helme: William J. Mickel, of Grand Rapids; Burr E. Lincoln, of Harbor Beach; James Helber, of Ann Arbor, and Russell Woodruff, of Howell. The following dairy inspectors have been appointed: Charles A. Hughes, of Kalamazoo; and Marvin A. Jones, of Plymouth. Commissioner Helme has not selected his deputy as yet.

## State Phone Properties

There is a possibility that the present legislature will eliminate all state supervision over the telephone properties of the state. What to do about the regulation and supervision of the telephone business is a matter over which there is a great deal of difference of opinion and not a great deal of information upon which to base a decision. There are three or four bills before the legislature providing for the repeal of the Giles law which places supervision in charge of the railroad commission. At the same time there is discontent over the present regulations there is confusion throughout the state over what should be done. For instance, the state railroad commission has been requested by a dozen different cities to aid in getting rid of the double telephone service, while from about a dozen others have come applications for authority to organize a competing system and install double telephone systems in these communities. Ultimately it is expected that the state railroad commission will be unable to prescribe for the telephone companies the rentals they shall charge, based on authentic showing as to their earnings and deciding how much they should be allowed to charge off for depreciation and the other items allowable for conducting the business and the amount of profit they shall be allowed to make before reducing their charges. The proposition is one, however, of such size as to require some time to work out and in the meantime the telephone companies, and the railroad commission, are receiving many complaints.

Anti-Treating Bill.  
Rep. Will Sprout, of Grand Rapids, will shortly introduce a bill to prevent treating in saloons. Many members of the legislature who are not total abstainers have declared that the idea is a good one and it is expected that Rep. Sprout's bill will be liberally supported. Four years ago a similar measure was presented but it was defeated.

Conservé Mineral Resources.  
In the near future a bill will be introduced in the legislature to conserve the mineral resources of the state for the benefit of Michigan. It is pointed out that the vast store of mineral resources of the upper peninsula is under the present system, sent out of the state to enrich others, resulting ultimately in the state being left with numerous deep holes in the treasury and a decrepit section robbed of its riches with no corresponding return to the commonwealth or its people.

The bill as proposed, provides for a tonnage tax on ores, based on a scale which will meet the differences in mining conditions and the richness of the ores. That part of the measure is ancient having been a fruitful source of political argument for many years, but the new feature which looks attractive to those interested in the well being of the state, adds a provision for rebating of this tax if the ore is manufactured into iron within the confines of the state. Those proposing this innovation in state regulation of its resources have visions of huge mills in sections of the state accessible to the iron and copper mines, and a growth to the industrial importance of the state, far beyond the dreams of the boosters of Michigan.

It is pointed out that if the owners of the iron resources of the state were obliged to manufacture the ore into iron within the state, huge mills would be established at ports along the lakes and industrial centers would be established that would give to Michigan the place now held by those cities in the east famed for their wealth made from the ore mined in Michigan.

Drinking Cups for Sale.  
Railroads and those in charge of public buildings will find themselves guilty of misdemeanors if they fail to establish drinking cup vending machines at their drinking fountains, if the bill introduced by Rep. Schmidt, of Oseola, ever becomes a law. The bill provides that the vending machine must be maintained near the fountains and that the cups may be sold not to exceed one cent each. Glass, wax or paraffine cups may be furnished from the machine.

Chief of Police Struble, of Kalamazoo, has recommended the appointment of Miss Ora Matthews, traveling sales secretary of the Young Women's Christian association, as a special police officer.

State Representative Middleton, of the second district of Genesee county, in an effort to find how the workingmen look on the proposed weekly pay measure, took a straw vote on the question at the Buick plant, in Flint. There are 7,000 men employed at the plant and the vote showed them opposed to the measure.

At a meeting of the progressives of Alma plans were made for placing a full city ticket in the field this spring. The board of supervisors of Genesee county, voted an appropriation of \$1,000 for the construction of a tuberculosis sanitarium at the Genesee county infirmary.

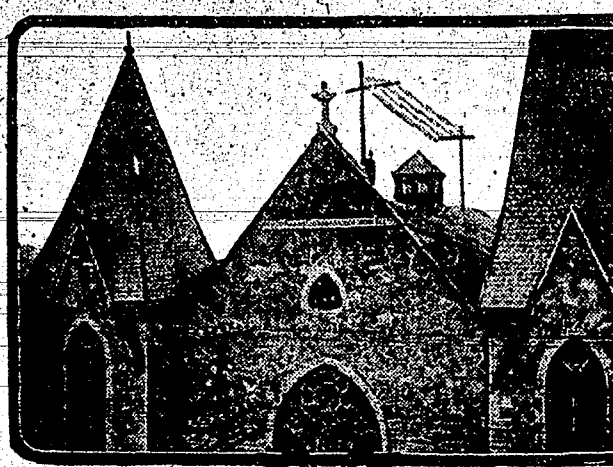

A primary election will be held in Marshall next spring to nominate three road commissioners. The primary is said by Attorney General Grant Fellows to be the only means of nominating the commissioners.

Mayor Thomas Zelinsky has vetoed the second resolution authorizing the establishment of a municipal coal yard in Battle Creek, but aldermen will try to pass the resolution over his veto.

The second death in 12 years among the student body of Albion college occurred when Eddie M. Turner died after an operation for appendicitis. Her home was in Flint.

James Martin, 54, is being held at the county jail in Kalamazoo, pending an investigation of the murder of Geo. Bandler, the wealthy Grand Rapids pawnbroker, on Jan. 14.

## WIRELESS STATION IN A CHURCH

Rev. Horace K. Holtzinger of Philadelphia has installed a complete wireless outfit in the Fifth Street M. E. church, where he will have classes in wireless telegraphy as an inducement for the boys and young men to come to church. The upper picture shows the roof of the church with the posts and wires of the wireless; the lower picture shows the clergyman in the study of the church receiving a message.

Teachers Object to Star.  
Politics has cropped out in the Saginaw Teachers' association because the president, John Mitchell, a member of the Saginaw high school faculty, is reported to have said he did not believe the members from the grammar schools were mentally capable of serving on any of the important committees.

As a result of the stories which are going the rounds, the lower grade instructors are working for the election of another candidate.

February 11 is the date set for the annual meeting, and unless harmony prevails there may be a clash, because Mitchell himself has been nominated to succeed himself. The lower grade teachers have placed in nomination an assistant principal, Miss Jesse Loomis, and as they have the votes in the organization they state they will probably go through.

Michigan Needs a New Prison.  
"This state is in need of another prison," says Warden Nathan P. Simpson, of Jackson prison. "The Detroit house of correction is crowded to its capacity, and all of the penal institutions of the state have about all the inmates that can be taken care of. The idea of establishing a prison in the northern part of the lower peninsula and developing large tracts of land I believe is a good one, but I don't think it would be good policy to discontinue the Jackson prison for the purpose of locating it in some other section of the state. So much money has been expended in buildings here that it would be a big sacrifice to make any such change."

Helen Gould Married.  
Helen Miller Gould, known throughout the world as the queen philanthropist of America's wealthy women, and Finley J. Shepard, assistant to the president of the Missouri Pacific railroad, chief of the Gould railway lines, were married in the spacious drawing room of the bride's stately stone mansion at Lyndhurst-on-the-Hudson, New York.

The Alpena Shippers' association has complained to the state railroad commission against the Western Trunk Line association of railroads, alleging rates recently instituted by the association on sulphuric acid are prohibitive.

Chief of Police Struble, of Kalamazoo, has recommended the appointment of Miss Ora Matthews, traveling sales secretary of the Young Women's Christian association, as a special police officer.

State Representative Middleton, of the second district of Genesee county, in an effort to find how the workingmen look on the proposed weekly pay measure, took a straw vote on the question at the Buick plant, in Flint. There are 7,000 men employed at the plant and the vote showed them opposed to the measure.

At a meeting of the progressives of Alma plans were made for placing a full city ticket in the field this spring. The board of supervisors of Genesee county, voted an appropriation of \$1,000 for the construction of a tuberculosis sanitarium at the Genesee county infirmary.

A primary election will be held in Marshall next spring to nominate three road commissioners. The primary is said by Attorney General Grant Fellows to be the only means of nominating the commissioners.

Mayor Thomas Zelinsky has vetoed the second resolution authorizing the establishment of a municipal coal yard in Battle Creek, but aldermen will try to pass the resolution over his veto.

The second death in 12 years among the student body of Albion college occurred when Eddie M. Turner died after an operation for appendicitis. Her home was in Flint.

James Martin, 54, is being held at the county jail in Kalamazoo, pending an investigation of the murder of Geo. Bandler, the wealthy Grand Rapids pawnbroker, on Jan. 14.

## HEAD OF TURKISH ARMY SLAIN

Peace Delegates Recalled; Many  
Slain in Constantinople Riots.

Rioting has broken out all over Constantinople, many persons have been killed and more wounded following the assassination of Nazim Pasha, commander of the Turkish army, during the demonstration against the declaration of peace with the Balkan states and thecession of Adrianople.

The new Turkish cabinet, organized on the resignation of the peace cabinet which voted to comply with the demands of the Balkan allies, has instructed the peace delegates in London to return to Constantinople. The Ottoman ambassadors at Vienna and St. Petersburg have also been recalled.

Enver Bey, the most spirited leader of the Young Turks, was appointed chief of the general staff of the army, to succeed Nazim Pasha.

Nazim Pasha was shot and killed from a window by Enver Bey and Talatt Bey after Nazim's aide-de-camp had opened fire at the new leaders. He was nearly 60 and was characterized as the best commander-in-chief Turkey possessed in recent times. He was minister of war in the first Kiamil cabinet.

The crisis in the affairs of the empire came as the result of the cabinet's proposal to buy peace with the Balkan states by turning over Adrianople and the Aegean islands. It was against the sacrifice of Adrianople, the ancient Turkish capital, that the people rebelled.

The Michigan State Telephone Co., has reduced its rates for toll service in MacKinnac and Chippewa county districts.

Teachers Object to Star.  
Politics has cropped out in the Saginaw Teachers' association because the president, John Mitchell, a member of the Saginaw high school faculty, is reported to have said he did not believe the members from the grammar schools were mentally capable of serving on any of the important committees.

As a result of the stories which are going the rounds, the lower grade instructors are working for the election of another candidate.

February 11 is the date set for the annual meeting, and unless harmony prevails there may be a clash, because Mitchell himself has been nominated to succeed himself. The lower grade teachers have placed in nomination an assistant principal, Miss Jesse Loomis, and as they have the votes in the organization they state they will probably go through.

Michigan Needs a New Prison.  
"This state is in need of another prison," says Warden Nathan P. Simpson, of Jackson prison. "The Detroit house of correction is crowded to its capacity, and all of the penal institutions of the state have about all the inmates that can be taken care of. The idea of establishing a prison in the northern part of the lower peninsula and developing large tracts of land I believe is a good one, but I don't think it would be good policy to discontinue the Jackson prison for the purpose of locating it in some other section of the state. So much money has been expended in buildings here that it would be a big sacrifice to make any such change."

Helen Gould Married.  
Helen Miller Gould, known throughout the world as the queen philanthropist of America's wealthy women, and Finley J. Shepard, assistant to the president of the Missouri Pacific railroad, chief of the Gould railway lines, were married in the spacious drawing room of the bride's stately stone mansion at Lyndhurst-on-the-Hudson, New York.

## LESSONS OF STREET DANGERS.

In these days of haste and hurry in our busy streets, teachers might do well to give their pupils a word of warning about crossing streets. Since the advent of the automobile, street dangers seem to have increased a hundred fold. Over in England a London coroner whose court deals with a big number of accidents each year, has just expressed the opinion that the number of street accidents could be greatly decreased, if parents and school teachers would instill in the minds of the children the dangers of the streets. They ought to be educated to understand how to cross the street, he considered. Of course you will notice, it is the teachers who should teach the children. What is to be left for parents to do towards instructing their progeny?

Fetish of the Bath.  
Some of our own species seem fairly to dread the touch of water. When the necessity of absolute cleanliness by means of frequent baths was being preached by a friend who had been reading Comb's Physiology, in which he had learned something of the wonders of the skin, with its millions of pores that had to be kept open for health, one of our neighbors remarked: "Oh! that's unnatural. It's well enough to wash in a tub maybe once or twice in a year, but not to be paddling in the water all the time like a frog in a spring-hole!" Another neighbor, who prided himself on his knowledge of big words, said, with great solemnity, "I never can believe that man is amphibious!"—John Muir, in the Atlantic.

Styles Originated at Varsity Towns.  
The varsity towns of England bring out many fashions which are accepted by the ordinary public later on. It was the varsity that first favored the colored knitted mufflers in club colors that we see worn during the winter months and by the sporting boys at any outing. The gray flannel trousers fashion was also started by a varsity. I believe it was Cambridge.

Books Bound in Rat Skin.  
It appears that a new use has been found for the skin of the common brown rat. In England, it is said, the bookbinders have taken to using these skins for covers of fine editions hitherto bound in high-grade leather. It is reported that a trade association of £250,000 a year has developed in Great Britain and that many skins are imported from Calcutta. Rat skins have long been used for purses, gloves and similar small articles, and are proving very useful for these purposes.

Demand for Luxuries.  
Government estimates show that luxuries are coming into this country at the rate of \$1,000,000 a day, and if that rate holds good it is estimated that imports of luxuries will aggregate \$250,000,000 for the calendar year 1920. Importation of art works during October were to a large extent responsible for the unprecedented record. That item amounted to approximately \$4,000,000 for the month named.

She Knew Better.  
The young man was something of a bore and the young woman sent word that she was out.

"But he has a box of candy with him," was the word that came back from the maid.

The young woman reflected, "No," she finally said, "it isn't worth it. Tell him I'm out."

Almost Thrown Away.  
The fish I had from you yesterday wasn't fit to eat. I was obliged to give it to my servants!"—London Opinion.

PAINFUL, TRYING TIMES

If she failed to pay it, it would be because she was dead.<sup>22</sup> For she could not survive a comparison between herself and her mother. Here in Naples she might find something, an opportunity. She spoke French and Italian fluently; and in this crowded season of the year it would-not be difficult to find a situation as a maid or companion. So long as she could earn a little honestly, she was not afraid. She was desperately resolved.

"Such a dinner! Long would she remember it; and longer still, how little either of them ate of it! She knew enough about those things to appreciate it. It must have cost a pretty penny." She smiled, she laughed, she teased; and always a battle to dam the uprising tears.

The dining-room was filled; women in beautiful evening gowns and men in sober black. But the two young people were oblivious. Their fellow-diners, however, bent more than one

## Judge Still

The walking eraze of a few years ago gave a well-known sporting man an opportunity which he could not resist, taking advantage of. He had hands widely distributed on which was stated:

"A Great Crosby gentleman will give \$50 to the man, woman or child who first succeeds in doing the following task: To walk from the Pierhead (Liverpool) to Crosby village. There each competitor must buy a meat pie and walk around the Big Stone and eat it."

About a hundred entries were received, and the walk took place, or what Monday. Much excitement prevailed and a great cheer-rose as a local pedestrian was seen leading the rest of the crowd. His meat pie was

day wear and a fairly decent dinner suit, along with other necessities.

"Well, I say!" he murmured, struck by a revealing thought.

# CRAWFORD AVALANCHE

GRAVING, CRAWFORD COUNTY, MICHIGAN, THURSDAY, JANUARY 30, 1913

## ANNUAL TAX SALE.

### STATE OF MICHIGAN.

The Circuit Court for the County of Crawford in Chancery.  
In the matter of the petition of Oramel B. Fuller, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.  
On reading and filing the petition of the Auditor General of the State of Michigan, praying for a decree in favor of the State of Michigan, against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.  
It is ordered that said petition be brought on for hearing and decree at the regular term of this Court to be held at Grayling, in the County of Crawford, State of Michigan, on the tenth day of February, A. D. 1913, at the opening of the Court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien claimed thereon by the State of Michigan, for such taxes, interest and charges, or any part thereof, shall appear in said Court, and file with the Clerk thereof, acting as register in chancery, their objections thereto on or before the first day of the term of this Court above mentioned, and that in default thereof the same will be taken as confessed, and a decree will be taken and entered as prayed for in said petition. And it is further ordered that in pursuance of said decree the lands described in said petition for which a decree of sale shall be made, will be sold for the several taxes, interest and charges thereon as determined by the Auditor General of the State of Michigan, beginning at 10 o'clock a. m. on said day, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each parcel thereof, at the office of the County Treasurer, or at such convenient place as shall be selected by him at the County seat of the County of Crawford, Michigan, and each parcel described in the decree shall be separately exposed for sale for the total taxes, interest and charges, and shall be sold to the person paying the full amount charged against such parcel, and accepting a conveyance of the smallest undivided fee simple interest therein, or if no person will pay the taxes and charges and take a conveyance of less than the entire thereof, then the whole parcel shall be offered and sold. If any parcel of land cannot be sold for taxes, interest and charges, such parcel shall be passed over for the time being, and shall, on the succeeding day, or before the close of the sale, be reoffered, and if, on such second offer, or during such sale, the same cannot be sold for the amount assessed against it, the same shall be sold for the same amount in the name of the State.  
Witness the Hon. Nelson Sharpe, Circuit Judge, and the seal of said Circuit Court of Crawford County, this 28th day of November, A. D. 1912.

## STATE OF MICHIGAN.

To the Circuit Court for the County of Crawford in Chancery.  
The petition of Oramel B. Fuller, Auditor General of the State of Michigan, for and in behalf of said State, respectfully shows that the list of lands and taxes assessed against said lands, and which were returned as delinquent for nonpayment of taxes, and which taxes have not been paid, together with the total amount of taxes, interest and charges, and the time fixed for sale and collection fee and expenses, as provided by law, extended against each of said parcels of land.  
Your petitioner further shows that said lands have been returned to the Auditor General under the provisions of Act 200 of the Public Acts of 1893, as delinquent for nonpayment of said taxes for said years respectively, and that said taxes remain unpaid, except that lands included in said "Schedule A" for taxes of 1890 or prior years were returned to the Auditor General as delinquent for said taxes under the provisions of said Act 200 of the Public Acts of 1893, and which taxes remain unpaid.  
Your petitioner shows that in all cases where lands are included in "Schedule A" as aforesaid for taxes of 1890 or of any prior year, said lands have not been sold for said taxes, nor have they been sold for said delinquent taxes, and the sale of said lands has not been set aside by a court of competent jurisdiction, nor have been cancelled as provided by law.  
Your petitioner further shows that the said taxes on said described lands have remained unpaid for more than one year after they were returned as delinquent, and the said taxes not having been paid, and the same being now due and remaining unpaid, your petitioner prays a decree in favor of the State of Michigan against each parcel of said lands, for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land contained therein, and in default of payment of said several sums computed and extended against said lands, that each of said parcels of land may be sold for the amounts due thereon, as provided by law, to pay the lien aforesaid.  
And your petitioner will ever pray, etc.  
Dated November 21st, 1912.

Miss Laura Simpson entertained the Helik-dek club Monday evening. The fore part of the evening was spent in sewing and at 9:30 a delightful lunch was served by the hostess. Instead of a regular meeting next Monday evening there will be a sleighride.

David Schaible, a section foreman from West Branch, was brought to Grayling from Lovella, last week and placed in the county jail, pending an examination for insanity. He was kept under close surveillance by Dr. Keyport for several days and in the court of Wellington Patterson, judge of probate for this county, was adjudged sane and ordered released, which was done last Monday.

The annual Danish dance and banquet, given by the sisterhood and brotherhood at the opera house last Saturday evening was well attended. Old as well as young took part in the enjoyment of the quaint Danish potlucks and dances. At about 12:00 a banquet was served by the sisterhood. Walton's orchestra furnished music and it is requested by the societies that we publicly extend to the orchestra their appreciation of the excellent music rendered.

A friend of ours last week handed us the following clipping taken from the Hamansville Star-Leader, which is quite clever: "It is reported that one of Bolivar's fastidious married ladies 'needs bread with gloves on.' 'The incident may be somewhat peculiar, but there are others. The editor of this paper needs bread with his shoes on; he needs it with his pants on; and unless the delinquent readers of this paper of freedom pay up before long he will need bread without a d thing on.'"

A warrant has been issued for the arrest of Frank Dorothy, of Rowley, Kalkaska county, for passing forged checks upon Frederic business men. An undersheriff of Kalkaska notified the authorities at Frederic that they had their man, therefore undersheriff Haynes went to Rowley Saturday to get the prisoner but upon his arrival was notified that he had left. Fearing to hurt the feelings of his brothers, who are reputable farmers near Rowley, Dorothy was not arrested but was kept under surveillance, however his conscience didn't seem to trouble him enough to cause him to give himself up. Of course Deputy Haynes was quite angry, as he well might be. Our county has incurred some expense, and what is worse the accused forger is still at large.

The remains of Mr. Jessie Duell of Tawas were met Thursday afternoon, January 23rd, by his daughters and taken for interment to Elmwood cemetery, where services were conducted by the Rev. V. J. Huston of the Methodist Episcopal church. Mr. Duell was 76 years of age and passed away in his sleep at the home of his daughter, Mrs. Sarah Milne, of Saginaw, who accompanied the remains here. He was born in New York state and lived in Au Sable 50 years and at one time was a resident of Grayling. He leaves a widow, one son and four daughters, the latter attending the funeral. Mrs. A. Duell, of Alpena; Mrs. B. Kozinski, of Detroit; Mrs. L. Niel, Mrs. Della Smith and Mrs. Sarah Milne, of Saginaw were in attendance at the funeral.

Mrs. Maude Lantz, of Lewiston, is visiting her sister, Mrs. Morrice Gorham.

There will be a meeting of the Michigan Dairymen's association at Saginaw, February 4 to 7th.

Mrs. R. Richardson and daughter, Miss Roberts, have returned from Detroit after a month's visit with friends.

Warren VanAuburg had his arm broken last Monday morning, while at work in the saw mill, when a belt broke and struck him.

Mr. and Mrs. Joseph Nephew returned last Saturday from their wedding trip and are at the home of Mr. Nephew's mother on the south side.

We can furnish anything in the rubber stamp line from ink pads to complete numbering machines. It takes not more than one week for delivery.

Mr. A. M. Lewis and Miss Edith McPhee, who had been visiting at the homes of their parents in Newberry, since before the holidays, returned to Grayling last Friday night.

Game Warden Habbitt was called to Lansing, Tuesday, by state game warden Wm. R. Oates for the purpose of talking over conditions in this part of Michigan. There are a number of contemplated changes in the game laws that will be considered. Among the proposed new laws is one for a non-resident license for trout fishing.

A party of girls and boys with the Misses Jones, Magnant and Murray as chaperones, enjoyed a sleighride out to Mortenson's farm home in Beaver Creek, Tuesday afternoon. After they arrived there, games were played and refreshments served. Mr. and Mrs. Mortenson are so hospitable that a jolly good time is always had at their home. They arrived home at a late hour.

The dancing party to be given by the Odd Fellows lodge next Tuesday night promises to be a grand affair. The dancing will be in the Odd Fellows temple on first floor and to begin at 8:30 o'clock. An error was made in printing the invitations therefore we call attention that the party is to be on Tuesday evening, February 4th. About 500 invitations have been issued and it is expected that this will be a grand closing of the winter party season in Grayling.

There are several factors that are responsible for the making of an industrial and thrifty man out of an active wide awake boy and one of the most important of these is getting the boy to start a bank account of his own in his early teens or before. Not only should a boy be encouraged to put most of the money he earns on deposit in such an account, but it will help to further encourage him if the fund is increased a little bit now and then by those most interested in him. The having and building up of such a bank account will not only make the boy saving and thrifty but he will, at the same time learn the value of a dollar while the incentive he will have to add to the sum on deposit will keep from spending the money he earns foolishly. Help that restless active boy to start a bank account. It may make a man of him. —E. S.

A minstrel show will be given under the auspices of the Citizens band the last week in March at the Opera house. The band will be assisted by numerous local minstrelmakers; exponents of Ethiopian stunts; fresh from the wilds of darkest Africa; German and Irish comedians; good, bad and indifferent; songs, dances and funny sayings. Magnificent first part of Oleo all in one. The stage setting will be under direction of Mr. M. Hanson, and with its electrical effects and arrangements will be a hummer. Geo. Belanger has been secured to take charge of first part, jokes, funny sayings, songs and dances, and he will have his blackface companions in proper shape for the occasion. The music will be under direction of P. G. Walton. Songs have arrived and are distributed to the members. Grand introductory first part Overture by band and chorus by entire company. Strenuous efforts are being made to make this entertainment the best ever.

Peter Heyn passed away last Sunday morning at the hospital, from a complication of kidney diseases. He was a member of Lewiston Lodge I. O. O. F. and a large delegation from that place, together with Grayling lodge and members from Gaylord lodge were in attendance at the funeral. The funeral service was under the direction of our local lodge I. O. O. F. At 2:00 P. M. last Tuesday, the members of the fraternity marched from their hall to the Methodist church, where the body was reposing and together with other friends of the deceased listened to Rev. V. J. Huston as he preached from the text: "Behold, I show you a mystery." Mr. Johnson was born in Denmark, and was about 45 years old; he came to this country 25 years ago. He was a single man and had no immediate relations here. He had been foreman for the Saginaw, Hanson Co. at their camp at Wolverine. His remains were laid to rest in Elmwood cemetery, with the impressive Odd Fellows burial services. Robert Smith of West Branch, and Chris. Johnson, of Quilch, were among those from out of the city who attended the funeral.

# YOU HAD BETTER BURN YOUR MONEY

**AND SAVE YOUR ENERGY,**  
says Dr. CYRIL G. HOPKINS,  
soil expert at the Illinois Experiment  
Station, than continue farming on the  
plan of taking from and not putting  
back into the soil those things which  
are absolutely essential to perma-  
nent, successful agriculture.

And he proves this statement. But  
he does more. After showing with  
irrefutable facts just why the pre-  
vailing American method of farm-  
ing is ruinous, he demonstrates how  
you can make your farm yield from  
30 to 40 more bushels per acre.

feature of this  
week's issue. It is by W. J. Harsha, a Colorado home-  
steader, and it tells the whole homesteading proposition  
from A to Z. Mr. Harsha has been through the mill  
and he says that a man who stakes a homestead and  
hasn't the two G's—gumption and grit—had better  
quit. He says further that a homesteader will stand a  
better chance of succeeding if he has \$1000 in cash.

## SAN JAK

### The Greatest Cure and Preventive for Bright's Disease.

No one ever cured kidney trouble  
with a pill, powder, tablet or mineral  
water. The reason is there is nothing  
in them by which you can force the  
drug to the vital point and neutralize  
the inflammation or granulation of the  
kidneys. (These are statistics by the  
most eminent men in the faculty.)

Symptoms of kidney trouble—swelling  
under the eyes, grayish, white, or  
was color of the skin denotes granu-  
lar diseases of the kidneys. The  
cure is SAN JAK. The reason is clear.  
SAN JAK neutralizes poison in the  
tissue of the vital organs of the body,  
clearing away inflammation and cat-  
arrh in all parts of the digestive  
tract and vital organs. SAN JAK is  
the only preparation allowing a nor-  
mal expansion of the kidneys at all  
times, by which action the kidneys  
are enabled to absorb alkaline sub-  
stances, which are the decomposed  
products of the bowels, and eliminate  
them. Otherwise, in renal weakness,  
this condition is the cause of ill health  
and Bright's with rheumatism.

SAN JAK will not harm a well per-  
son, and for the weak ones its faith-  
ful use means perfect health and  
strength for young and old.

Man should die of old age, not  
disease.  
San-Jak will keep your blood as  
pure as a lily. We sell San-Jak and  
will guarantee satisfaction or return  
the price of one bottle, \$1.00.

### Cleopatra's Pearl.

Most persons know the story that  
is told of Cleopatra to illustrate her  
luxurious habits of living—that she  
dissolved in her wine a precious pearl.  
No one seems yet to have questioned  
what must have been the effect upon  
the drink, but scientists scoff at the  
possibility of such solution.  
The fact is pearls are not soluble  
in wine. The most powerful vinegar  
affects them slowly, and never op-  
tremely dissolves them, for the organic  
matter remains behind, in the shape  
of a spongy mass that is larger than  
the original pearl.

### Begin Early to Train Children.

It is habit alone that creates obed-  
ience in the child, and for the child, and  
if it is not formed early, nothing but  
fear, bitter warfare can ever pro-  
mote it. In its being, system is one  
of the noblest laws in evidence. It is  
the great "under study" for universal  
peace.

### Umbrella Stand.

A sponge in a porcelain umbrella  
stand will keep the umbrella from  
striking the bottom of the jar, which  
is often broken in this way, and will  
also absorb the rain water from a  
wet umbrella. A carriage sponge will  
fit the bottom and is not expensive.

"Typhoid pneumonia had left me with  
a dreadful cough," writes Mrs. J. E. Cox of  
Joliet, Ill. "Sometimes I had such awful  
coughing spells I thought I would die. I  
could get no help from doctor's treatment  
or other medicines, till I used Dr. King's  
New Discovery. I owe my life to this won-  
derful remedy, for I scarcely cough at all  
now." Quick, safe, and reliable for all  
throat and lung troubles. Sold by
